Yes- as a lamb producer we had to schedule our lamb processing 6 months out. Lower Valley Processing was scheduling processing of cattle a year out.

Subject: Information about processing back ups?

Hi Jan,

You had said you might be able to gather some information about the wait times for local meat processing for the VAPG application. We are wrapping that application up, but I'm trying to add in some more COVID information if you have anything or are able to contact some producers who had issues.

Thanks!

Kaylee
